

He is like humor. When you
try to explain it, it's bad.

```
{ Developer } from 'life';
```

```
PrinceRaj {  
  constructor() {  
    this.passions = ["Coding", "Data", "Analytics"];  
    this.goal = "Make Impact";  
  }  
}
```

```
while (learning) {  
  code();  
  coffee();  
  repeat();  
}
```

```
return success;
```

```
prince = new PrinceRaj();  
prince.build();
```

Keep Learning. Keep Growing.

```
def success():  
    skill = ["C", "C++", "Python",  
            "SQL", "Excel", "DSA"]  
    for s in skill:  
        improve(s)  
        stay_consistent()  
    return "Dream -> Plan -> Action -> Success"
```

Hi, I'm
PRINCE RAJ
